

AT7 *Smart*

AT 7*smart* On-line Automated Dissolution System

SWISS
QUALITY
ISO 9001

Our design fits everywhere

- **Automated photometric sample analysis for USP apparatus 1, 2, 5 and 6**
- **Unique Hollow Shaft™ sampling**
- **On-line UV-Vis and/or off-line sample collection into HPLC vials**
- **Automated media addition and pH change capabilities**
- **Autocompliance™ minimizes routine physical validation checks**
- **Controlled by 21 CFR Part 11 compliant WinSOTAX dissolution software**

The SOTAX AT 7*smart* on-line automated dissolution system with the Evolution 300 spectrophotometer from the Thermo Electron Corporation:

- **Long-life Xenon light source**
- **8 and 16 position cell changers-control up to two dissolution systems with a single instrument**
- **Separate UV-Vis validation package available**
- **Automated performance and calibration tests**
